Utokyu`s Easily understandable & speakable Japanese language lesson20 書庫版

(扌 = tehen`s kanji samples)

On the former article, we showed the guidance and outline of Kanji 7 fields.

Yesterday, in the 1st field, “木”(=kihen= relevant to tree or wood)

Today, in the same 1st field, next item “扌”(=tehen=relevant to hand or using by hand)

1.The shape of “扌” is “手”(=hand)symbolized

Ex)●揉む (1 momu=to massage) right part of this kanji”柔”means “soft”.

Then this kanji`s message is “to make it soften by hands”.

●拙い(mazui=be not skillful)right part of this kanji”出”means “to come(go) out”.

Then this kanji`s message is “a person is not skillful, therefore hand out for helping to not skillful person.

And the same pronouncing, different meaning one “mazui=不味い means “not tasty”

“味(aji)means “taste” and front one”不”means “not”

●払う(harau=pay) right part of this kanji ”払”means “swing or swing away”.

Then this kanji`s message is “swing coins or bills away by hand”

We don`t like payment, then we usually behave such a way., maybe.

Ex(okane wo))Ikura haraeba iino desuka ? =(おかねを)いくら払えばいいのですか ? = (お金を) 幾ら払えばいいのですか ? =How much should I pay?

●技=(waza=tech or skill)right part of this kanji”支”means “support or assist”.

Then this kanji`s message is “a matter of supporting(assisting)by hand skill

●招く =(maneku=invite) right part of this kanji”召=刀(katana) + 口(kuchi)”means “call with sword (bitter way)and by mouth(sweet way)”

Then this kanji's message is "inviting by hand's sign "please come to us".
𠬞 (tehen)kanji, many, many others we have also.
On the next lecture, will show you "𠬞" (sanzui=mizuhen=relevant to water)
Thank you.
