16th June 2022

Utokyu`s Easily understandable & speakable Japanese language lesson21 書庫版

(氵 =sanzui=mizuhen`s kanji samples)

On the former article, we showed the guidance and outline of Kanji 7 fields.

Today, in the same 1st field, next item “ 氵 ”(=sanzui=mizuhen=relevant to water)

1.The shape of “ 氵 ” is “水”(=water=drops of water rebounding image)symbolized

Ex)●海 (umi=sea) right part of this kanji” ㇿ + 一 + 母”means nearly equal“mother”.

Then this kanji`s message is “mother of water”.

●泡(awa=bubble)right part of this kanji”包”means “to cover”or to ”wrap”

Then this kanji`s message is “wrapped by thin water film”

●泣く (naku=to cry) right part of this kanji ”立”means “to stand”.

Then this kanji`s message is “Tears falling looks like a water column=water vertically standing”

●洗う =(arau=to wash or to clean up)right part of this kanji”先”means “advanced, advantage”.

Then this kanji`s message is “advanced matter to other matters”

氵 (sanzui=mizuhen)kanji, many, many others we have also.

On the next lecture, will show you the digest of remained other 6 fields kanji parts and samples.

Why suddenly comes out digest?

Because our main purpose is that you understand even only 1 kanji, has so, so many information and images. Maybe it already has done it now. Then next time is digest.

And the lecture after next time ,will tell you different stories.

Thank you.
