Utokyu`s Easily understandable & speakable Japanese language lesson22 書庫版

(Digest 1/2)

According to our past time announcement, today`s article is digest version of other remained 6 fields of kanji parts. PART 1

● 旁 (つくり=tsukuri=side) block is attached at right side of kanji

One of samples

Section: 𠄎 (おおざと=oozato=English?)

Sample: 都 (Chinese style pronunciation: 卜 (to) Japanese style pronunciation: みやこ (miyako) means “metropolitan, capital city”

Left side “者” means people, then this kanji message is “many people living place”

● 冠 (かんむり=kanmuri=crown) block is attached at upside of kanji

One of samples

Section: 亼 (ひとやね=hitoyane=human)

Sample: 会 (あう=a-u) means “to meet”

Under side “云” means speaking, then this kanji message is “go for speaking with someone

● 垂 (たれ=tare=hung down) block is attached at from upside to left side like a hill-top

starting sharp downslope ski course.

One of samples

Section: 宀 (まだれ=madare=as a main sample kanji of 魔 type attached: under the~, image)

Sample: 店 (Chinese style pronunciation テン (ten) Japanese style pronunciation みせ (mise) means "shop or store"

Inside "占" means "occupy", then this kanji message is "under the roof place where is occupied by goods and people"

Today is digest PART 1, that`s over.

Next time PART 2.

To be continued.

Thank you.
