Digest version of other remained 6 fields of kanji parts. PART 2 is over.

Ancient China had more over 100,000 kanji letters, now a days Japan, after minimizing, has 2000 kanji letters named “Touyo-u-kanji(当用漢字)” It`s most useful kanji.

In this class we tried grouping them by using 7 fields of kanji parts. But sorry for that it`s merely guidance level.

From next time other stories, we will tell.

Thank you.
