(Rewritten :Utokyu`s Easily understandable & speakable Japanese language lesson: Funeral message)書直書庫版

Our Former Prime Minister was shot by lone-wolf style terrorist`s handmade gun and died. I got very, very strongly shocked almost lost words, the reason why, don`t know by myself own. Anyway, rasonlessly got shocked.

For him, I have known both opinions, agree or not agree and accept or reject in Japan.

On this matter, I no touch to it consciously.

Instead of it, I will inform only the fact after his death.

From US, Special hi-level messenger came at once in real.

From China, funeral message came.

And above all, 3 facts want to inform to you.

Below.

First

In very, very rare case, that Putin sent a funeral telegram which was very emotional (=upset +sensitive mode=it looked like that at a moment he brought one aspect of human face back) one to Abe`s family and his relatives directly. It`s quite very rare as Putin.

Second

Prime minister of India Modi commanded to stay under funeral mode fully 1 day to Indian people.

At the last, especially I want to inform to you and hope to understand our former prime minister.

It`s this episode.

His wife Akie, in other words former First Lady of Japan, at the time when she met her husband already dead, she held his dead body and cheeked and cried with shouted calling

“Shin chan, Shin chan” (their private nick name between this couple)

Other First Lady have behaved such a one? until now?

Maybe she strongly loves him. And he has been worthy for it, maybe.

Thank you.

(Above is my quite private and emotional comment. Not political)
